Vietnam	LL, GN, PS		

NOTES

- 1 The catch data are in units of weight (kgs or metric tonnes) only, rather than both numbers of fish and weight.
- 2 The catch data are in units of numbers of fish only, rather than both numbers of fish and kilograms.
- 3 The catch data are for swordfish only.
- 4 The unit of effort is "days on which a set was made", rather than "days fished or searched".
- 5 The unit of effort is "sets" rather than "days fished or searched".
- 6 The catch/effort data are not stratified by the required categories of school association
- 7 The units of effort are unknown, or non-standard
- 8 No effort data provided
- 9 The data are aggregated by 5°x5° instead of 1°x1°
- 10 Unraised data stratified by 5°x5°, month and hooks between floats were also provided
- 11 National legislation (or policy) requires that time/area strata comprising data for less than three vessels can not be disseminated.
- 12 The 5°x5°/month Longline catch and effort data are not stratified by "Hooks between Floats"
- 13 Coverage of data provided is less than 50%
- 14 No breakdown of Billfish species catch provided
- 15 The estimation of bigeye in the reported yellowfin-plus-bigeye catch has not been undertaken in these data
- 16 The spatial aggregation is non-standard (must be 5°x5° for Longline; 1°x1° for surface fisheries)
- 17 Aggregate data not provided, but have been generated from annual catch estimates and/or operational data submitted to the WCPFC.
- 18 Data have not been "raised" to represent total catch and effort
- 19 Species composition of main tuna species catch does correspond to annual catch estimates
- 20 Aggregate data not provided, but have been generated from annual catch estimates and operational data made available to the SPC by their member countries.
- 21 This fleet was inactive in the WCPFC Convention Area.
- 22 Distant-water longline fleet data do not cover the entire Pacific Ocean (required for stock assessments of certain species)
- 23 Represents a combination of data provided by the flag state (for domestically-based vessels) and coastal states
- 24 Vessel numbers per Month and Area provided.
- 25 Catches of shark by species provided
