Notes on AGGREGATE CATCH/EFFORT DATA

2	Data cover the WCPFC Convention Area, but not the Pacific Ocean (in cases where Pacific-wide stock assessment is required)
3	Data have not been "raised" to represent total catch and effort
8	The unit of effort is "days on which a set was made", rather than "days fished or searched".

9	The unit of effort is "sets" rather than "days fished or searched".
10	The purse-seine catch/effort data are not stratified by school association
16	The 5°x5°/month Longline catch and effort data are not stratified by "Hooks between Floats"
19	The estimation of bigeye in the reported yellowfin-plus-bigeye catch has not been undertaken in these data
22	Species composition of main tuna species catch does not correspond to annual catch estimates

Notes on SIZE DATA

11	Includes collection of size data by Coastal States (Pacific-Island countries/territories) where this fleet operates and/or unloads catch
12	Albacore size data only available
